Description

Built on a 30-year track record, this well-established automotive service and customization shop delivers a full suite of high-demand offerings—from preventative maintenance and tire/wheel services to alignments and premium aftermarket upgrades including lift & leveling kits, window tinting, and camera installations. The business has a strong client base with approximately 90% repeat clientele, further supported by 30 active fleet accounts that provide consistent, recurring revenue. Operating out of a 6,000 sq. ft. leased facility in the Omaha metro area, the shop features a showroom and fully equipped service bays. Ownership is highly passive, with the seller spending less than 5 hours per week focused primarily on financial oversight and team check-ins—creating a turnkey opportunity for either an owner-operator or an investor. A seasoned and tenured team is already in place, led by a highly regarded technician known throughout the region for advanced customization work. To ensure continuity, the seller is committed to a smooth transition, offering up to 6–12 months of support for the incoming owner. The sale includes over \$500,000 in vehicles and more than \$180,000 in equipment.

Priced at **\$690,000** with minimal owner involvement (less than 5 hours weekly), a strong brand presence, excellent online reviews, and diverse revenue streams, the business is positioned for new ownership to scale. To sweeten the deal, the seller has offered to carry \$40,000 as a show of good faith in the continued success of the business post close.
