INVESTMENT BANKS & REAL ESTATE TRUSTS

Our Investment Banks & Real Estate Trusts are fully authorized to collect money from the general public and invest in different types of businesses for your own account and/or for third parties.

These kinds of Investment Bank's & Real Estate Trusts are ideal for capital raising, purchase and management of real estate of all kinds, including shopping centers, office buildings, hotels and apartment blocks as well as for e-wallet, electronic payment solutions.

INVESTMENT BANKS & INSURANCE TRUSTS

We can establish your Investment Bank & Insurance Trust including 100% Capital Protection for your investors.

By implementing a Capital Guaranteed Note Program, any losses experienced by the underlying investments are absorbed by your Fund, which tends to invest 50% of fund capital into very conservative U.S. Government-backed securities to help minimize the likelihood of losses in the event your business would default.

LICENSED INVESTMENT FUNDS IN THE NETHERLANDS

We are also specialized in establishing licensed Investment Funds in The Netherlands.

This unique regime option has proven to be a very popular route for fund managers who wish to establish a fund in a tax neutral jurisdiction and access a European market in a quick and cost-efficient way by raising capital through a listing on Euronext.

In addition, Eurolist by Euronext is a regulated market as referred to in the EU Markets in Financial Instruments Directive (unlike, for example, the Alternative Investment Market in the UK, that only has exchange-regulated status).

Below you will find a list of existing Investment Banks & Capital Trusts as well as Investment Funds we have established and keep on the shelves for our international clients.
